Childhood

Was it five years ago? Maybe it was ten years ago? Or was it just yesterday you found yourself being a child. There is a child in all of us, no matter how old we have become. It's the period of life no one can forget. The games we played, the escape from responsibilities, the feeling of contentment, the feeling of security. Reminiscing those times makes us wonder why we have to grow up and face a world of it's ups and downs. Time cannot be reversed, but isn't it a pleasant thought?

School ... An Experience

Twelve years of schooling...has it been intense learning or constant procrastination? Do you remember things you learned or tried to learn? East Union has been a portion of those twelve years...the portion which most will remember. Has it all been worthwhile. Only the individual can decide.

Friends

Friends are people...people who are close to you, physically and mentally...the familiar voice and smile. What would this world be without our friends? A lonely and confused place. Friends are a part of life. You depend on them and they depend on you. You would know them for a day or for the rest of your existence. Friends...a blessing in disguise.

Dreams

The human mind works in mysterious ways. It provides a person an opportunity to think, learn, feel and especially dream. Dreaming is the unrestrained imagination of one's mind. Your dream of things that will never be or dream of things you alone will make happen. Dreams of the abstract and bizarre. Dreams of the joys and love within. Dreaming is somewhat like an exercise for your mind's imagination. So dream on.

Achievements

To achieve is to set a goal and reach it. If it's just living a happy and healthy life. Achievements have been praised and acknowledged or have gone unnoticed. School has conditioned us to thrive on achievements. Whether it's having a winning team, getting an 'A' on a test, getting the chance to meet the new girl at school, graduating at the top of the class, taking that special someone to the prom, or just doing the best you do in whatever you set to do. In our capitalistic society we must prove our success to achieve but just living a full life is an achievement that will stand alone.

Fantasies

The world of make-believe is all around us. The tales of magical kingdoms, the amusement parks which fill a person with all the enchantment of fantasies and our dreams of secret wishes. Through infancy and adulthood we have floated on the mild escapades of fantasies. Somehow it has made growing up easier to handle knowing there is an escape from the vulgar but true tales of life.

Life ... An Actuality

SENIORS. A word associated with experience through living. We have just completed seventeen or eighteen years of our lives and more are to come in the future. Have we really been prepared to face the realization that the future has some difficult surprises? Or have we just strutted our way through? We'll see new places, make new friends, and become the base of tomorrow's society. Are we ready for the awesome responsibility?

E.U.'s first Junior Advisory Council

Organization and hard work create accomplishments. The class of '76 strive by that rule. The Junior class activities were planned at a camp-out at Pinecrest, Ca. The class officers and J.A.C. members met at the camp-out to organize their ideas and come up with the most profitable ones. The class sold candy at all home football games. They organized a skating party for the student body in Modesto. Funds were raised by car

washes and bake sales, which helped sponsor the dance after the St. Mary's football game. Money was also raised by selling the much in-demand "Lancer Shirts" in the spring and fall. The prom was a big success in the eyes of many students due to the careful planning of the Junior class. The Junior class accomplishments of the year should reflect their performance of their final year at East Union. . . Success. . .

Sharing the Spirit of Homecoming

A homecoming fills the air with spirit and excitement. Traditions of years past are relived. The creativity within which cannot be exposed during normal times finds itself exposed in the special feeling of homecoming. The class of '76 shared in the expression and spirit of homecoming. The class captured 3rd place in the float competition. Displaying their creativity are Pam Freitas, and Lori Pico shown dressed in Hollywood Garb for Hollywood Days. The other days of self-expression were Cowboys & Indians Day, Clash Day, Good Ole Days, and the traditional Red, White, and Blue Day.

Junior spirit in a crowd

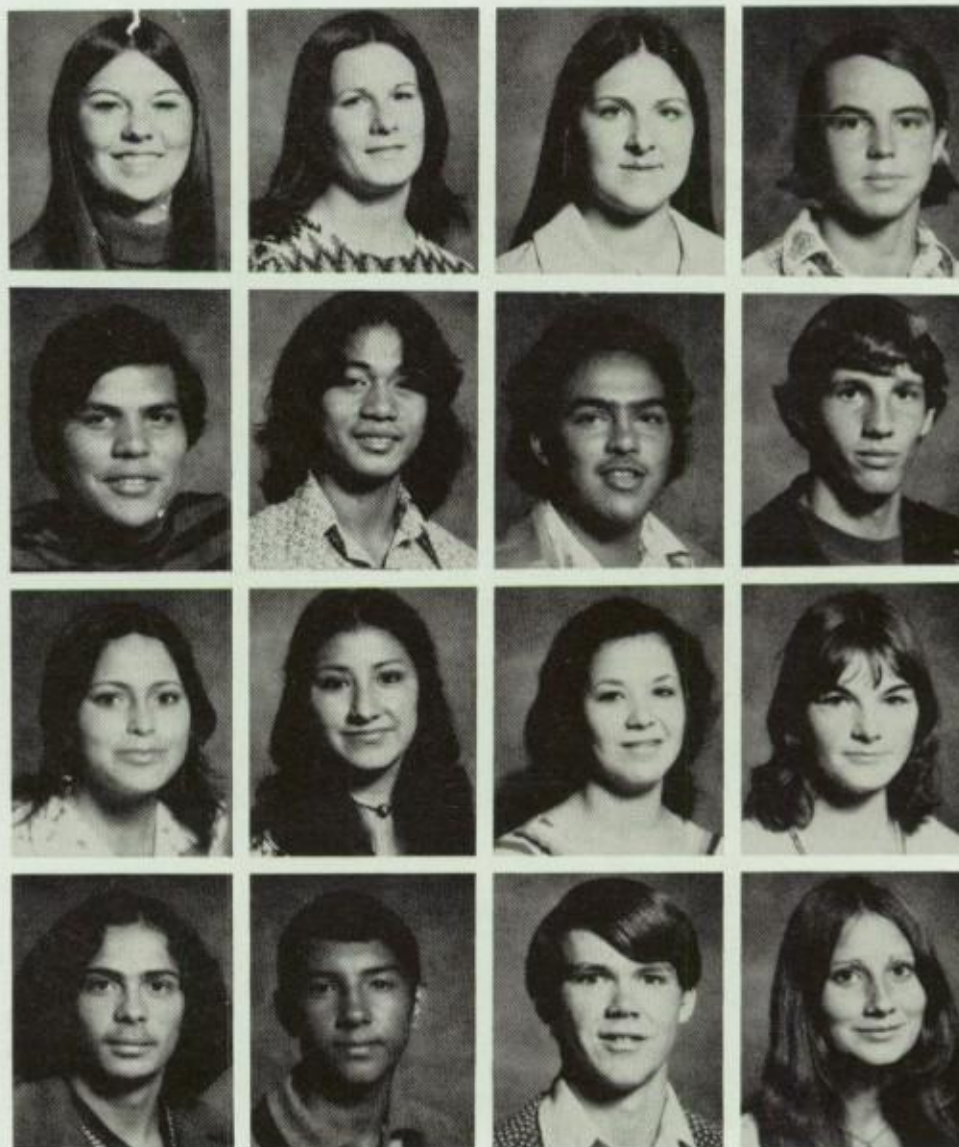

Rallies-

... six bits a dollar, all for East Union, stand up an hollar! What makes us yell so vigorously? Is there self-satisfaction involved? What ever the answer is, rallies have proven to fulfill its meaning, the promotion of enthusiasm. Enthusiasm to win in class competition. The motivation to rise to the occasion and win a game. The spirit during a rally is present. If you haven't noticed, you haven't noticed hard enough.

Junior Class

Moving on

With one year left to go, the Junior Class was busily working.

Students began to feel the nearness of important decisions about the future. Studying began in earnest to prepare for college placement exams and earn better grades for scholarships. Decisions were made about soon-to-be-made vocational choices.

Juniors worked together to finance class activities with T-shirt sales, booths, candy sales and sponsoring a dance.

We're Half Way There

The spirited class of '77 had a shining year with many fun money-raising events such as a bake sale and carwash. They also added to their treasury by having an after-game dance. As their second year at E.U. swept by, the Sophomores realized the excitement of school traditions and exhibited wild enthusiasm during rallies and spirit week.

Being Friends Together

Once in an age, God sends to some of us, someone who loves in us. Not a false imagining or unreal character, but looking through all our human imperfections, loves in us the divine ideal of our nature. We call this rarest of persons, who loves us not alone with emotion, but with understanding; "A Friend"

Class of '77

United

With Spirit

The winning spirit...the class '77 won the most class competitions. The spirit they have shown at rallies is like the tip of an iceberg...there's more beneath the surface.

Sophomore students filled the stands to give encouragement to the Squires as they fought their way to a tie for Championship in the Valley Oak League. They supported all of East Union's teams throughout the year.

Spirit was also high in the classroom. Sophomores managed to build friendships at the same time as they studied. Academic achievement was noticed as the names of Sophomores frequently appeared on the honor roll.

Stand Up for the Class of '78

1978 -- the year of the FRESHMEN! And the freshmen were certainly heard at the rallies this year. The large number of freshmen could be the reason for this recognition, along with the fact that they are talented at exercising their lungs.

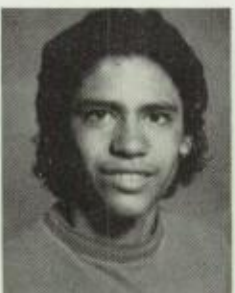

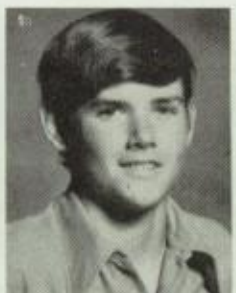

1: Freshmen show spirit in class competition at rallies.

2: Jeff Reynolds is not as experienced as senior boys at putting on pantyhose.

Freshmen Indulge

Throughout the year the Freshman Class has developed into a group of extremely hardworking and industrious students striving to be at the top in everything they accomplish. They excelled in academics, showing a high interest in learning. They excelled also in sports, finishing near the top in all sports. The students of the Freshman Class have displayed initiative.

Getting Involved

The staff at East Union High are friendly, efficient, always ready to give a helping hand. Using what they learn from their teachers and with their counselor's help East Union students are sure to have a lot going for them to achieve their final goal.

This year many nice things have happened and one of them is Mr. Richard Durham, our new principal. He is always ready to take time off and help you in every way he can, he also gives the school a lot of spirit, the 1974-75 football season is positive proof.

Cowboys, Flappers, and the Mafia

Homecoming Spirit Week Sept. 31- Oct. 4 brought E.U. students the chance to relive that favorite childhood game, dress-up. The 5 days of masquerades included Hollywood Movie Star Day, where Charlie Chaplin and Cher appeared; Cowboy and Indian Day with John Waynes and Pocahantases (on the loose running around); Clash Day came in technicolor; The Good Old Days brought the usual bobby-soxers along with a gang of mobsters; and finally Red and Blue Day on game day.

The week ended in a bang as Thursday Oct. 3 the rowdy night rally was held; and with school out at 12 noon on Friday; which provided time for the annual Homecoming parade. This proved that spirit does live at East Union.

Key word...Spirit!

On the night of October 3, 1974, students packed into the small gym for the Homecoming Rally. The atmosphere of the rally was that of about twenty years ago. The dress was in the mood of the Fifties era.

Representatives of each class competed in a messy milk-drinking contest (being denied bootleg liquor on campus). Shirlee Widmer was intensely dramatic and funny in "Mother, I'm Dying". Costumed as sweet young things of the Fifties, the Banner Girls danced to "Rock Around the Clock". The Song and Cheerleaders masqueraded as the Mighty Lancers.

The key word of this affair was SPIRIT!!! Some said it was the best rally East Union has ever had. For everyone it was a night filled with laughs, excitement, fun -- an evening to be remembered.

Effort, Excitement And Energy

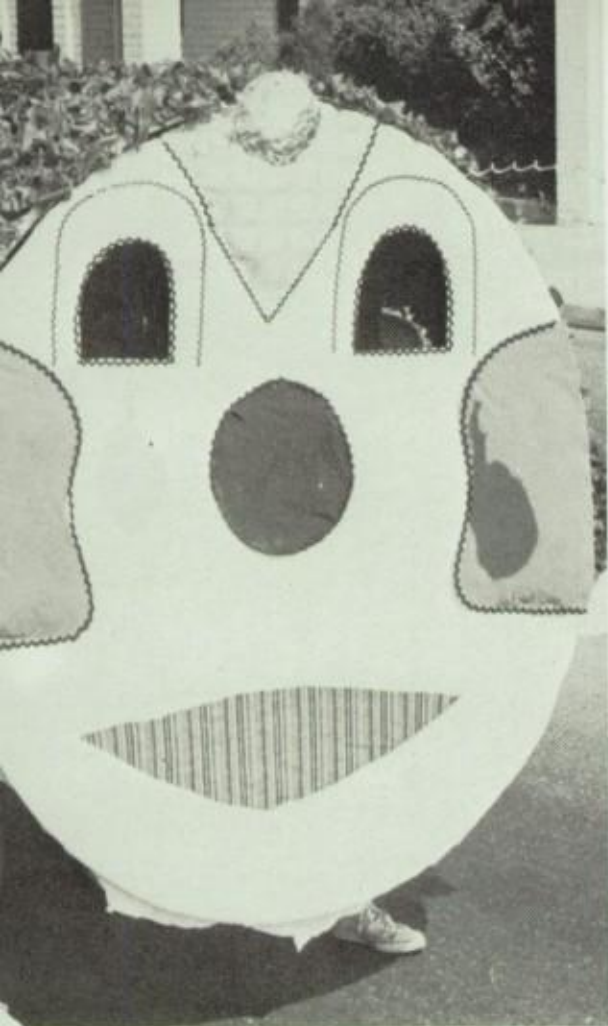

Effort, excitement and energy: three things that marked another successful East Union Homecoming Parade. Everyone involved showed concern and because of this, the parade moved smoothly.

The colorful floats were judged on how they corresponded to the theme, "The Sweet Taste of Victory", originality, amount of effort in the planning and building, and the overall effect. The winners were:

Sweepstakes	Senior Class
First Place.	Choir
Second Place.	Cosmopolitan Club
Third Place.	Junior Class
Most Original	Freshman Class

The judges this year were Mrs. Cutting, former assistant principal at East Union; Mr. Agostini, athletic booster club member; and Katie Kelley, Miss Manteca.

The Thrill of it All!

The days, the weeks of preparation, and then it's here, the night East Union High School has been waiting for, Homecoming.

A night of anticipation -- maybe the Lancers will win, maybe not. Maybe they will go on to win the V.O.L. championship, a first-ever for East Union.

Eagerly, the Homecoming Court awaits the announcement. First, the pageantry...floats entering and parading around the football field, the Lancer on his horse, pages and squires taking their parts in the play. Finally, the announcement: Julie Von Essen is crowned queen and Kathy Walker, princess for the 74-75 school year.

1. That moment of apprehension.
2. Mr. Durham gives a kiss of congratulations to the 74-75 Homecoming Queen, Julie Von Essen.
3. The Queen Candidates with escorts share the thrilling moment.

4. The Princess Candidates with escorts patiently awaiting the winning announcement.

No. 1 in Manteca

Our cross town rivals were royally trampled during the annual E.U. vs. Manteca game on Nov. 15, 1974.

With a record breaking crowd of 6,000+, there was standing room only. Almost every single play recieved avid crowd attention.

The mighty Buffs could not manage to score at all until the final quarter of the game, and then it certainly wasn't enough.

The even mightier Lancers had accomplished what they had set out to do all year. The skill and determination displayed by our team certainly proved to Mantecans that there is only room for one good team in Manteca and it resides at East Union.

The final score of this game was: East Union 30, Manteca 13.

"The mighty Buffs hardly managed a score, Those mighty Buffs weren't mighty anymore. . ."

- 1: The crowd on the winning side.
- 2: Burial site of the Manteca Buffs. May they rest in peace.
- 3: Window paintings reflect E. U.'s determination.

E.U. takes all

November 22 saw the arrival of a day of excitement and importance for the Lancers.

With nothing but victories earned this year, the Lancers were selected to travel to Galt to challenge the Galt Warriors in the Sac-Joaquin Medium School Play-off.

The game began just like any other, except for the bitter cold, and the tension was felt by everyone. Nerves were on edge, and any wrong move could have resulted in trouble.

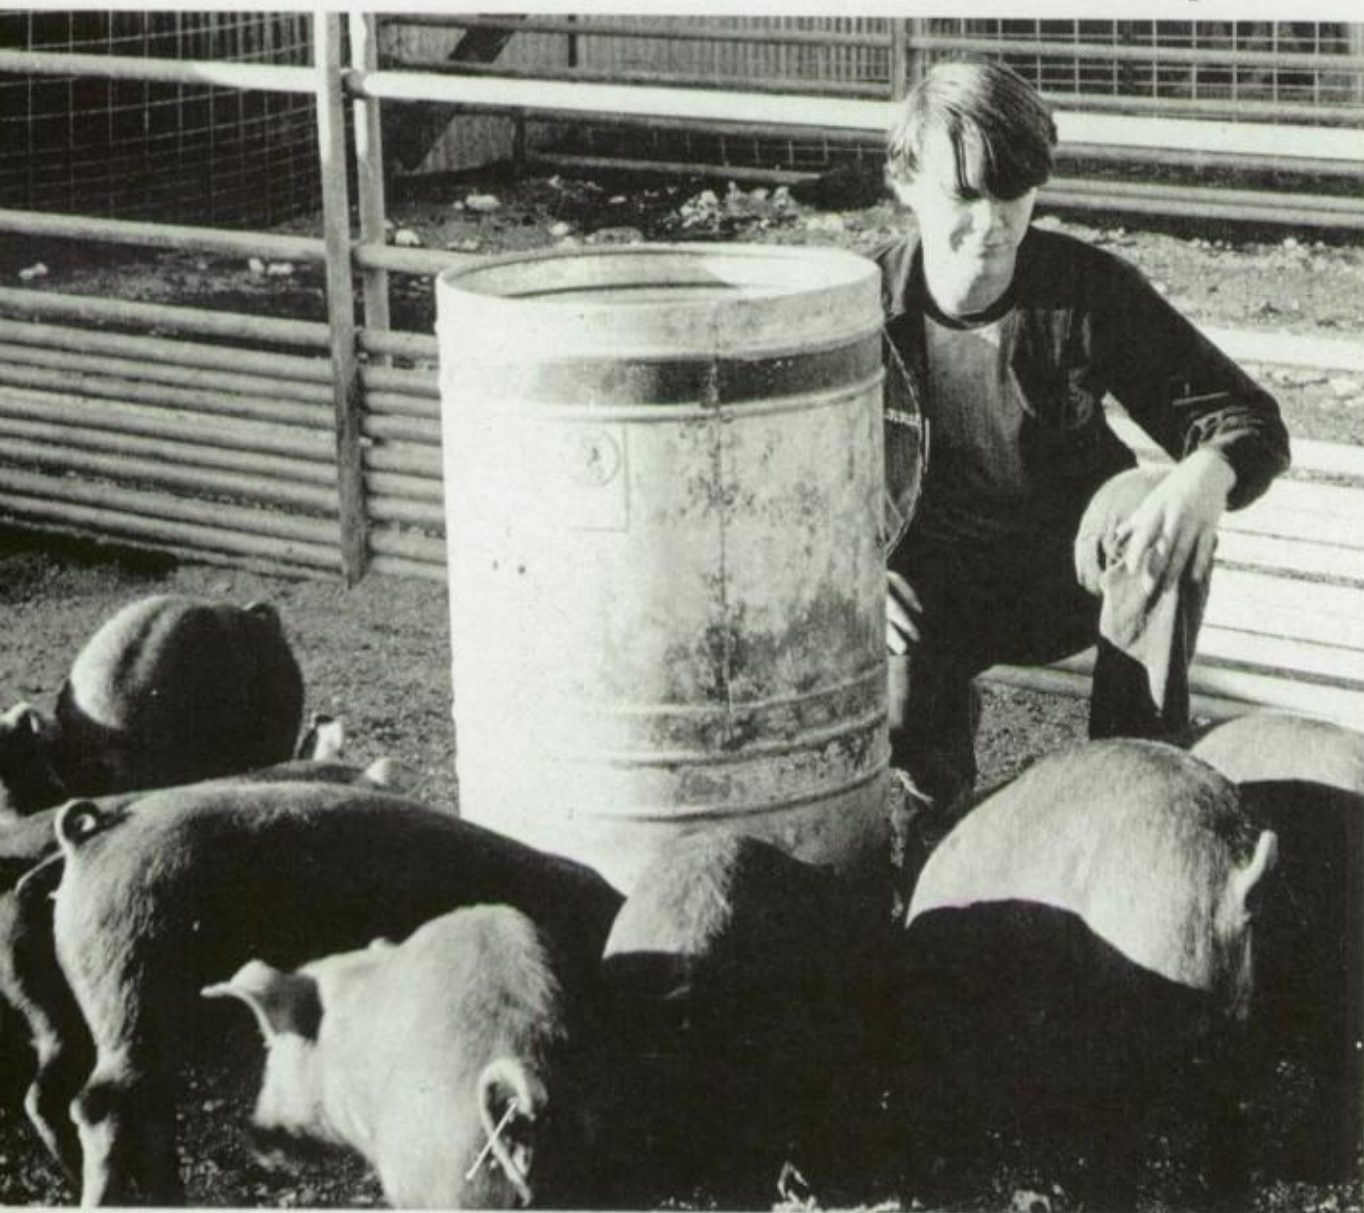

Although the Lancers played like champs as usual, they were defeated the first time all season.

Club activities throughout the year

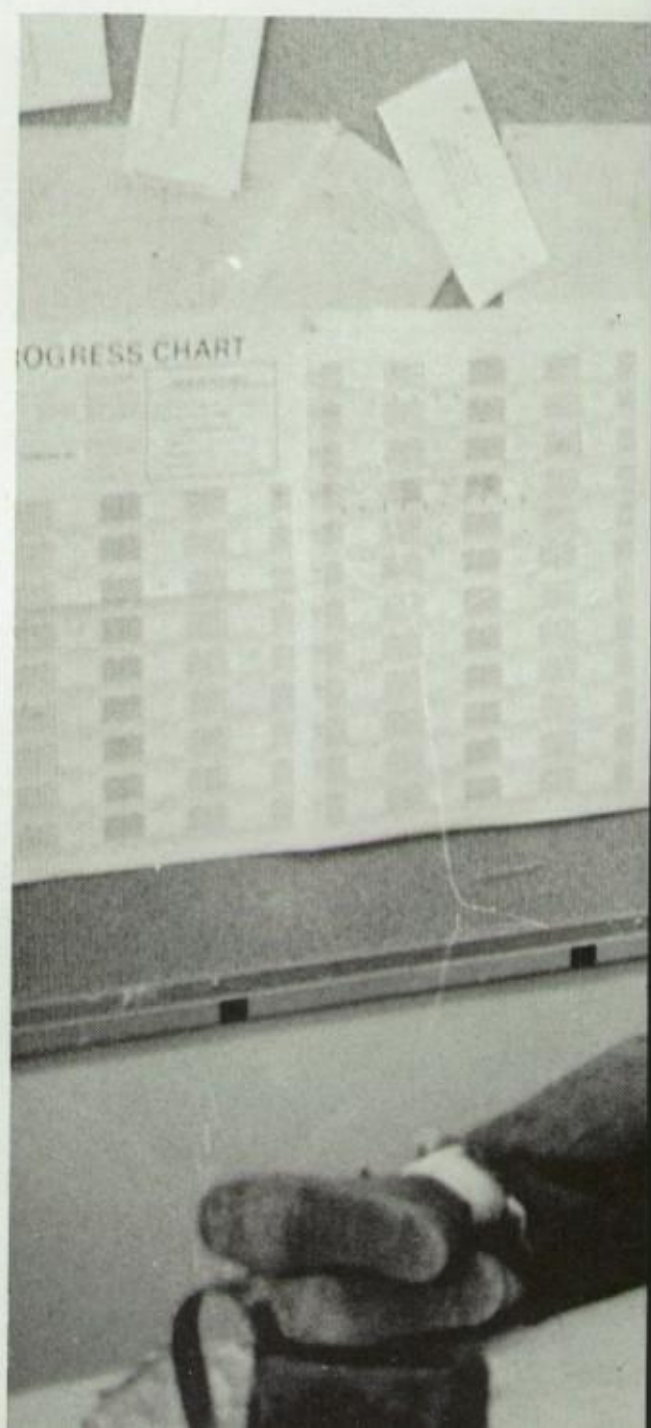

- 1: Cosmopolitan Club luncheon.

Clubs are a vital part of any school's function, and East Union is no exception.

With close to 17 clubs dealing with everything from Farming to Communications, East Union is very well equipped with clubs.

"S" Club and Interact are the two organizations that deal with community service. This helps build school involvement with the community.

Radio, Yearbook and Lance are the clubs that make up the Media department. Every year, this department becomes more knowledgeable and skilled.

So all of you E.U. members, stand up and take a bow!!!

Shaping Up!

East Union feels the motivation of progress. 1974-75 was the year of changes; new buildings, landscaping and new lakes (both planned and unplanned) new principles and principals. E.U. still has a feeling of choices and freedom but has tightened up on attendance and the appearance of the girls bathrooms.

This year E.U. added a Career Guidance Center to help the E.U. student make decisions about his future.

Students have also had the pleasure of dining in an air-conditioned cafeteria.

A lady custodian (latrine queen, as affectionately called by students) was hired to keep order in the restrooms and throughout the locker area.

A truant officer has also been employed on the E.U. campus. Students keep her on her toes.

Let the Good Times Roll

Life is full of its ups and downs. But who couldn't find time for the class that makes it worth getting up in the morning to go to school. Who couldn't find time to just mess around.

Good times like getting yourself in shape in the dance class...meeting in the cafeteria to eat, play and jam to the jukebox...going to the library to whatever. Some students even studied during their free time. Some enjoyed the cold bleachers at the "barrel".

Bad times like the faint smell of garbage cans burning in the girls restroom... the far-off gleam of the sun reflecting off Lancer Lake...the dust bowl flying through the halls blinding everyone.

- 1: Algebra B drags on...
- 2: ...Get down, get down...
- 3: What a bummer.

John comes to the States

Foreign exchange students have been a common sight at East Union and this year's exchange student is Joao Pessoa, Alias "John" from Brazil. John is a sophomore student at East Union, but back in Brazil he would be studying at College level.

John's hometown is Victoria, Brazil, north of Rio De Janeiro. He is staying with Mr. and Mrs. Al DeGroot. He arrived in February and will return back to Brazil in July. John's interests are playing soccer and hunting around the countryside near his town.

The school system differs greatly when comparing the schools in Brazil and the U.S. School in Brazil runs 6 days a week, Monday thru Friday from 7:30-11:20 and Saturday from 7:30-9:10. School runs from March to July and resumes in September til December. Elementary school in 5 years, High School 4 years, College for 5 years, and then a University for 5 or 6 more years.

John's new experience in the U.S. should be a most memorable one for him. Get to know him and it could be a memorable experience for you also.

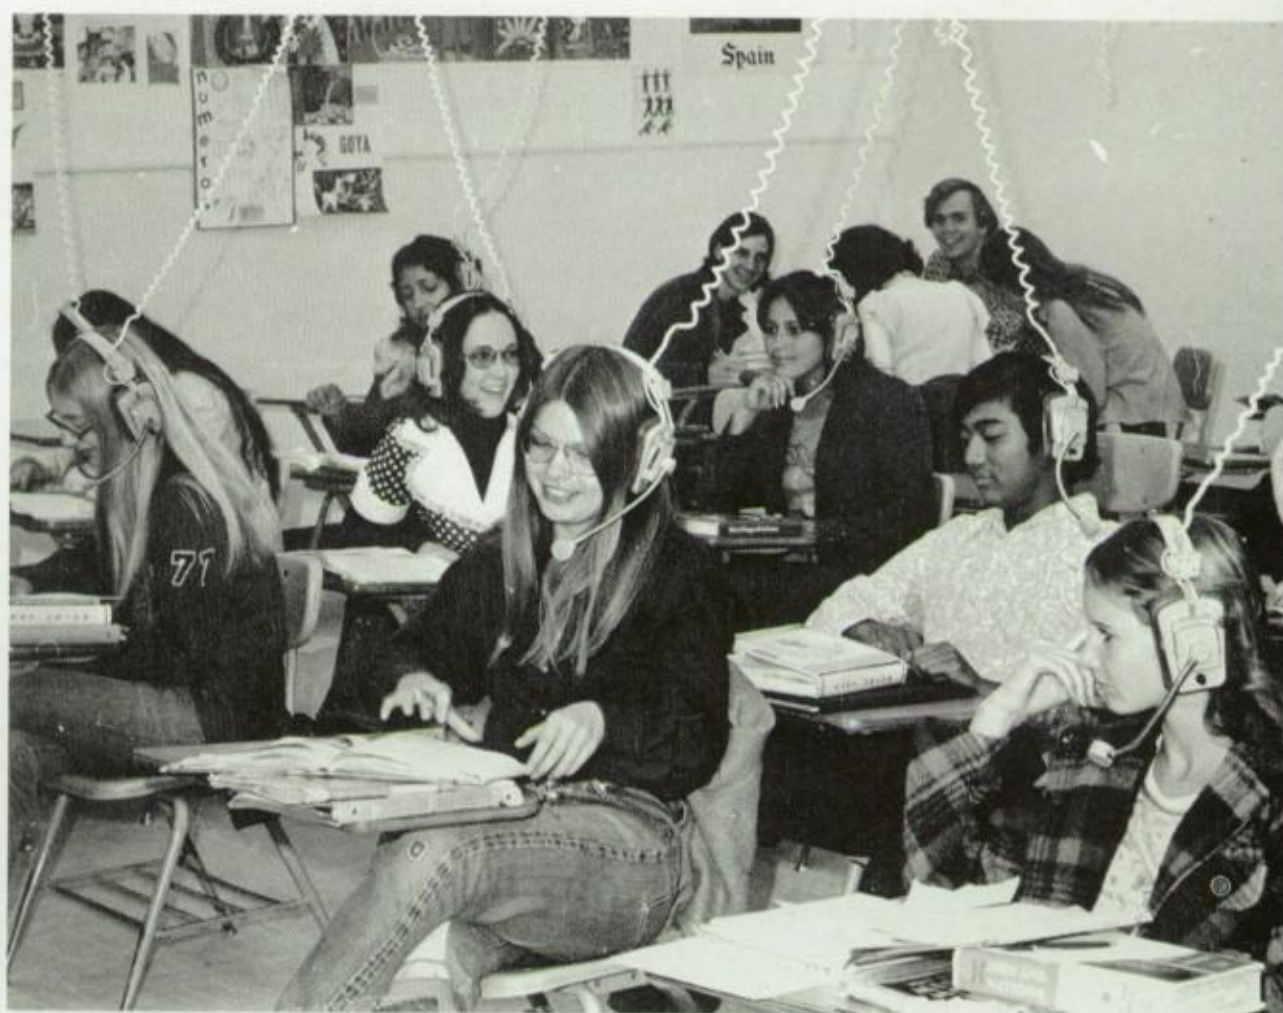

- 1: John enjoys his stay.
- 2: Spirit is equally important in Brazil schools as in the U.S.A.
- 3: Studies are required always.
- 4: More electives in the U.S.A. than in Brazil.

Academics

Learning the Concepts of Science.

Biological science courses have intrigued, enticed, enthused, and even bored EU students. Whatever the case, besides the lengthy lectures and notetaking, scientific activities are far from boring. They range from scraping cheek cells out of your mouth with a toothpick to taking a journey to the local Union Road ditch to collect specimens. Other points of interest might include observing the skin being pulled off an animal specimen, then stuffing it; or maybe just mixing up a few concoctions in the chemistry lab. In any instance, one may find a whole new world within the sciences, one of discovery and fun.

Using Tomorrow What We've Learned Today

The field of business is a popular career choice among today's students. The business department at East Union offers bookkeeping, business machines, shorthand, and office practice courses as an aid to the student planning a career in the field.

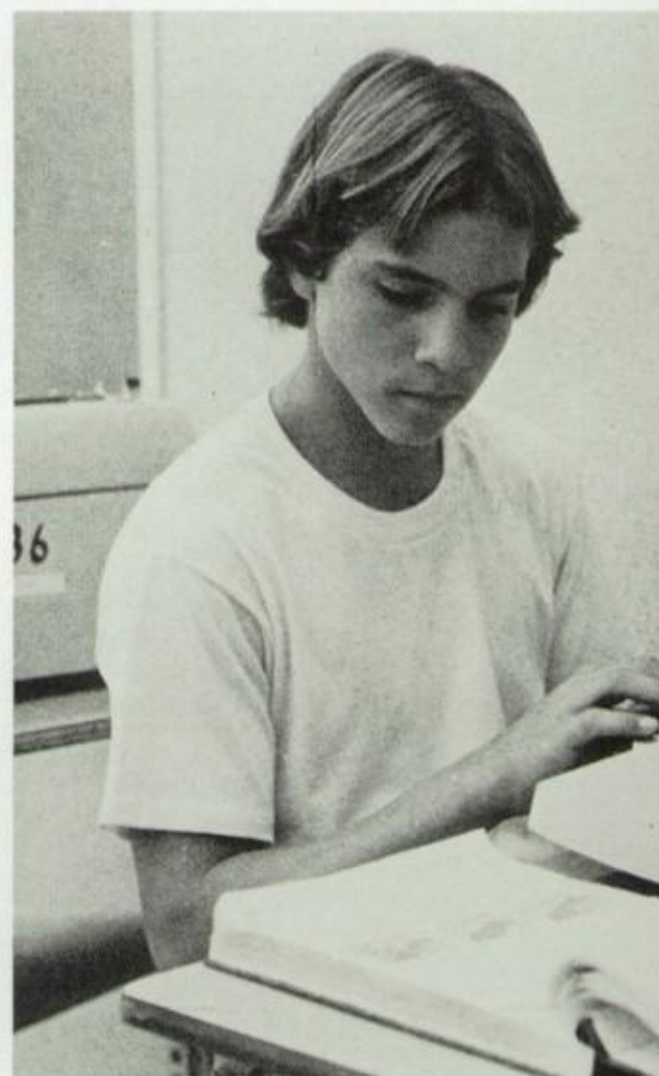

Typing is a course for everybody, it's not restricted to business students alone. Typing is a skill which comes in handy in our everyday lives, in letters, business forms, job applications, and others. The value of knowing this skill has proved profitable to many.

- 6: The students in Business machines are always busy.

Creating the Sounds People Enjoy

- 1: Mr. Riddle directs the choir.
- 2: Greg Lassell tunes in the right sound.
- 3: The Band practices a tune.
- 4: Rudy Sandoval goes on the air.
- 5: Mr. Barron plays in the trombone section.
- 6: Taking a break while the music rolls on.
- 7: The choir sings a song.

The person who enjoys performing in front of a listening audience is the type of person who joins the East Union Band, Choir, and Radio Production programs. Each has a different job, but all share in giving people hours of listening pleasure with the sounds they create.

Looking back on the 74-75 school year, all three programs have listed many proud accomplishments. Our Lancer Band captured many a trophy, as well as being tagged, "The Pride of Manteca", which they proved true as they took 1st place in the Manteca Christmas Parade. Our choir sang at many special occasions, including our homecoming game and several concerts. Our Radio Production program KNBS celebrated its first anniversary on the air this past January, and continues to provide its listeners with entertainment.

Being able to create something with your own hands means something...the transformation of dreams into reality. Art, Media and Home Economics helped to provide the necessary skills.

Art classes provided choices between leather, ceramics and painting/drawing/sculpture techniques.

In Media classes, students worked on school publications, for KNBS radio station and in the pressroom.

In Homemaking, students learned to cook, sew and run a home. Popular at East Union are marriage, family and child care.

As times change, so do ideas that only girls are homemakers. The boys have proven that they too can find enjoyment in domestic skills. Ideas about appropriate skills have also been changing for girls. More and more girls are muddying their hands in ceramics and learning to run the presses.

Learning New Ideas for a Better Future...

Reality and relevance are the outstanding features of the academic curricula at East Union. Simulation games helped students to experience the decision-making processes in government and to relate the lessons of past events to the here and now. Courtroom procedures were remembered longer after mock trials in Youth and Law. Consumer Math students figured out income taxes, how to get the best deal on cars they wanted and other basic survival skills. Language labs with tapes by native speakers made it possible for students to practice foreign languages. In English classes, skills needed to succeed in future studies were taught.

Lancers take Runner-Up spot in Nor-Cal Playoff Berth

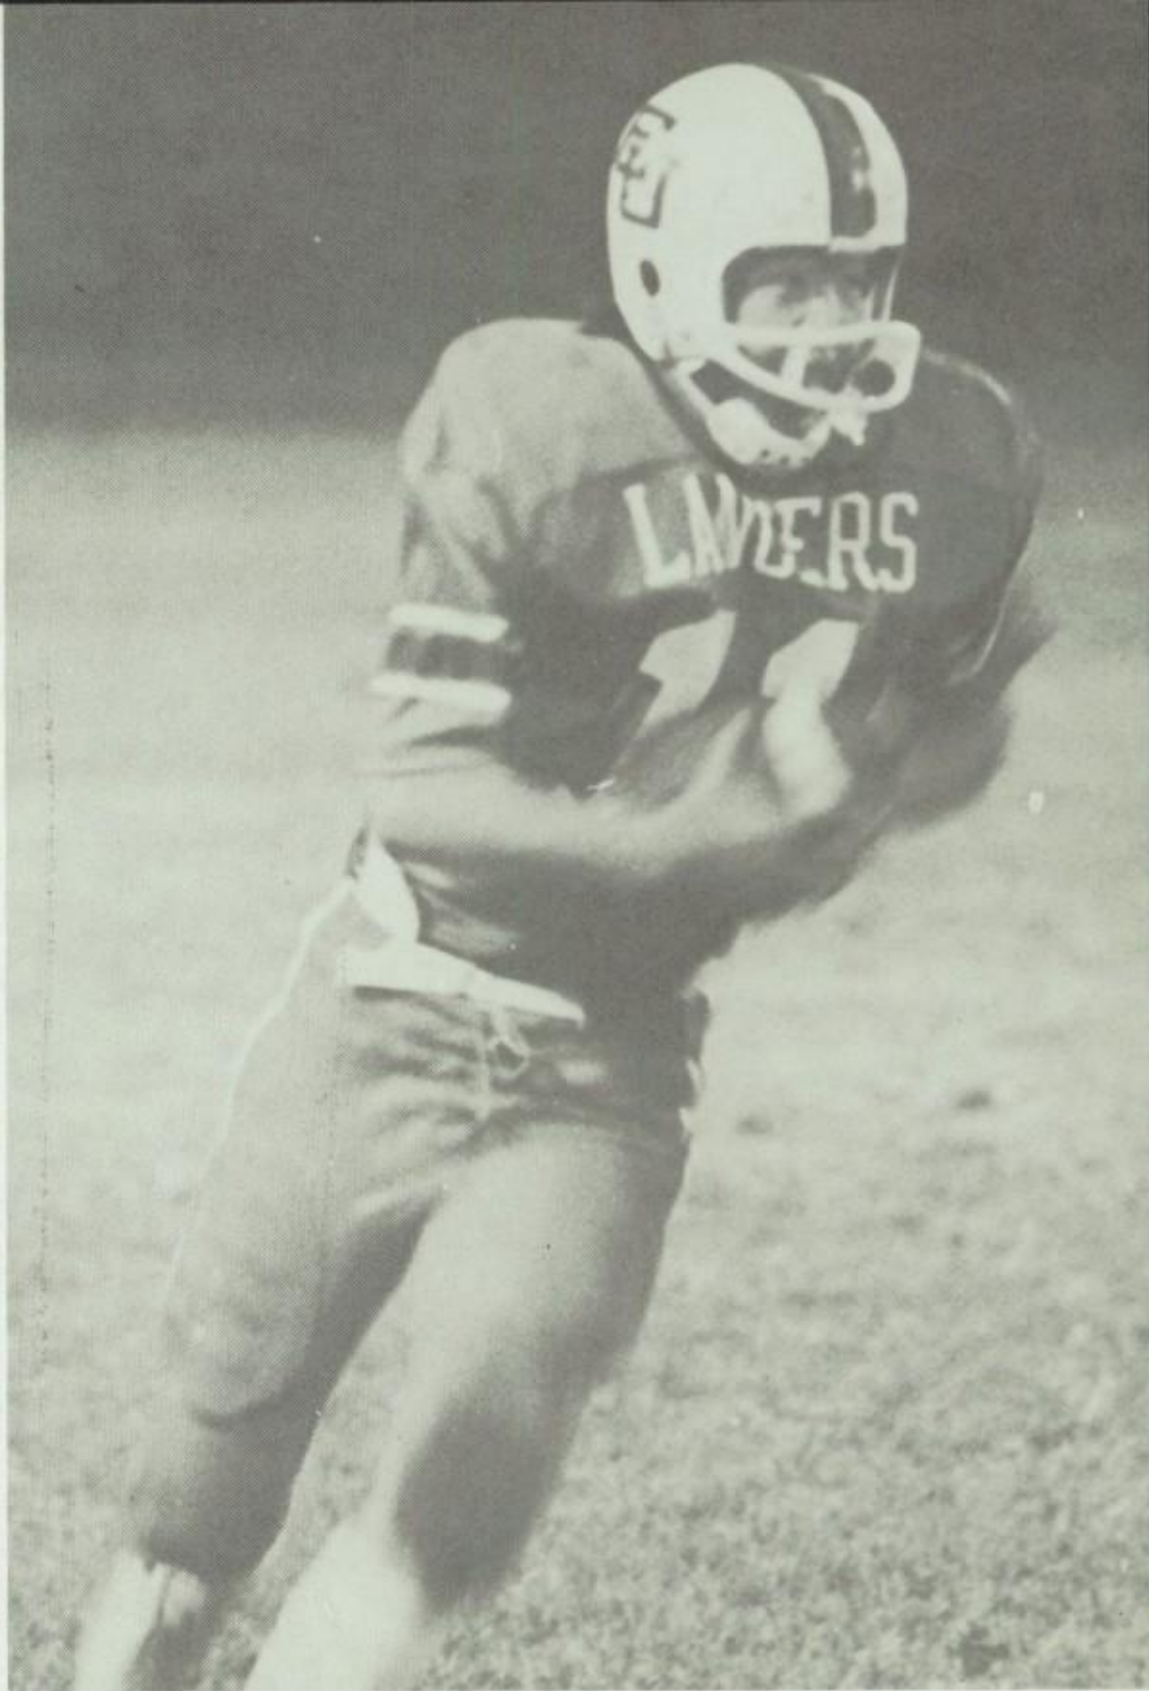

1

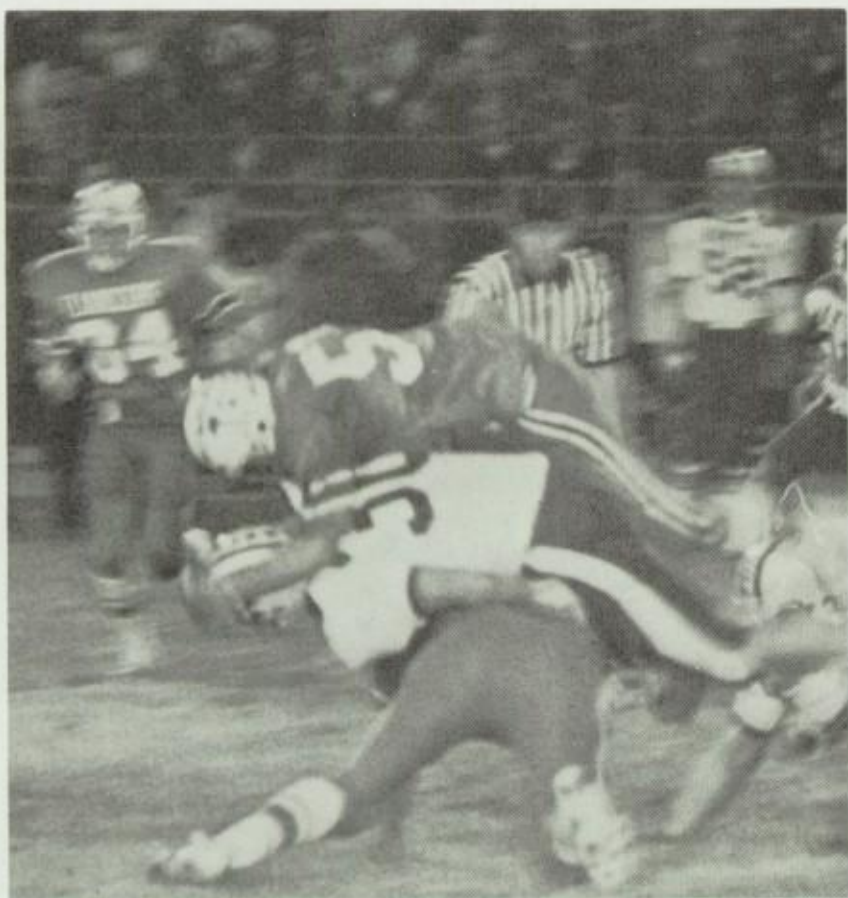

- 1: The long years of tragedy are over; E.U.'s No.1!
- 2: Ron escapes to open field on QB keeper.
- 3: UGHHHHHHH!!!!
- 4: Hubbard holds for Taylor's extra point kick.

This year's varsity football team brought to East Union their first championship season ever. Blessed with the return of two all-leaguers, the Lancers swept to ten straight wins and earned a berth in the Northern California Play-off Game. Fighting hard throughout the play-off game, East Union came back strong from a twenty-four point halftime deficit, to be behind only by two when the final gun sounded.

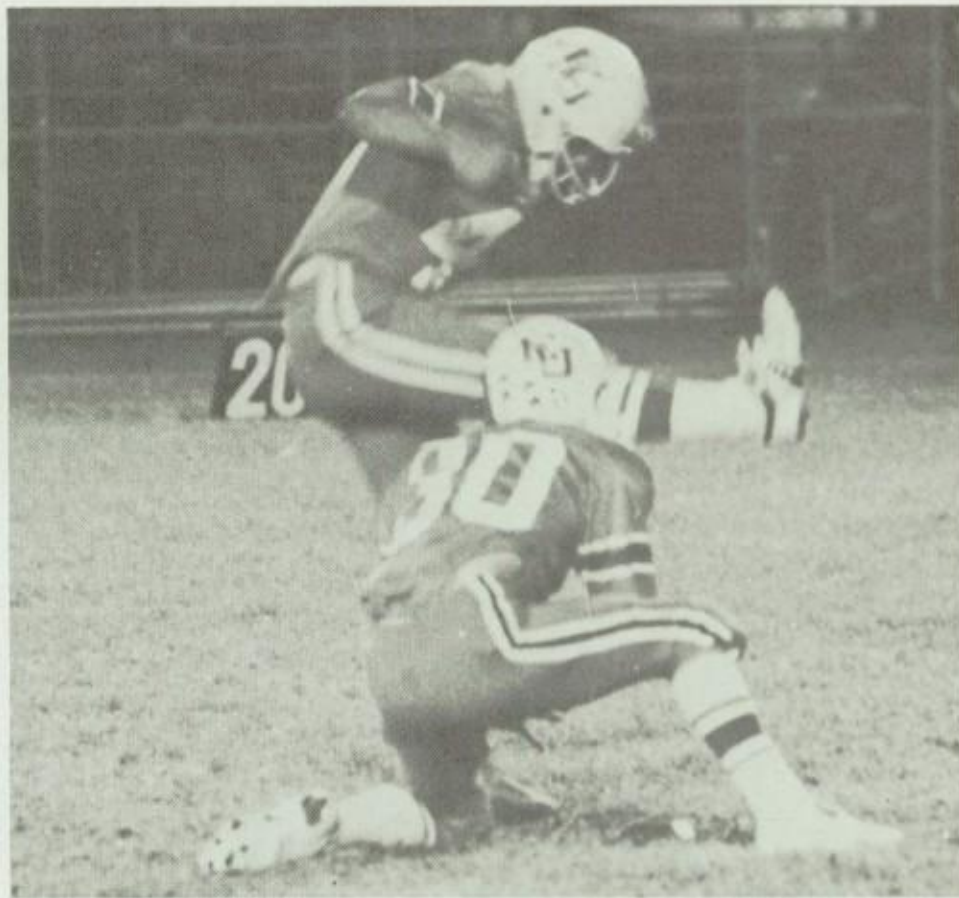

The season was highlighted by the selection of seven all-leaguers, the "Coach of the Year" award to Coach Gebhardt, and the first-ever 30-13 stomping of downtown rival Manteca High School.

Frosh-Soph tie for V.O.L. Championship

A seven wins, three losses season is pretty good, and that is what this year's Squires compiled. Only losing one league game they tied for the league championship! Even though that one loss was against downtown rival Manteca, the Squires have a lot to be proud of, the first Frosh-Soph Championship ever at East Union. The outstanding playing of many good athletes led the Squires to their successful season.

Frosh defeat

All but 1

A great season of football for all E.U. teams was proved this year by the 6-1-1 record of the Pages. Only a closing-seconds loss in the last game against the Buffs kept the Pages record undefeated. This was the finest frosh team since the 1970-71 season.

A Blend of Style and Grace

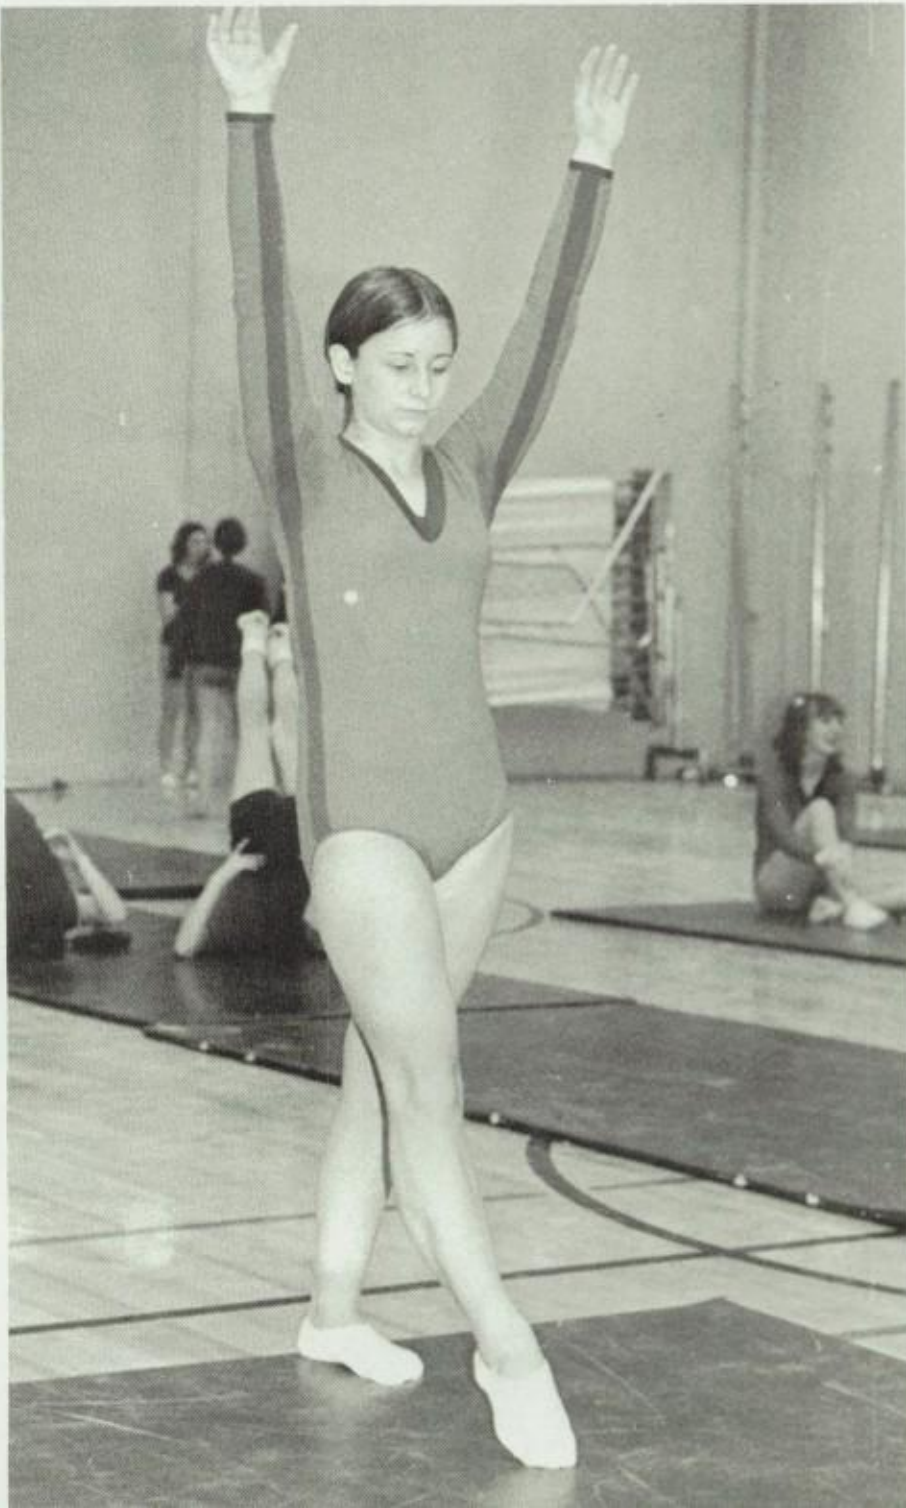

To be a success in gymnastics you have to work hard, be coordinated, and love to fly in the air. These girls put all of these together and formed the best varsity team E.U. has ever had. A lot of credit should go to these fine upstanding young gymnasts.

Follow the Bouncing Ball

The Lancer Basketball teams, during the season, gained success and developed school spirit to its fullest. With few seniors leading, the junior-packed club, the Varsity Lancers fought hard to keep up their league-leading reputation.

The Squires, with an outstanding improvement from last year, finished high in the VOL standings. With plenty of height and plenty of determination, the team developed many outstanding players.

The Freshman Team had the most accomplishments of all Lancer teams this season. Some say this team is one of the finest to come to East Union. With many players to choose from, the Frosh were among the top three in league standings.

¡Futbol!

For the first time ever, the Lancer Soccer team competed in league play. They proved just how good they could be by placing third in the tough Mid-Val Soccer League. The kickers were led by some outstanding individuals who showed the fans just what soccer is all about. Three of these young athletes were chosen to the first team on the all-league squad and Coach Danielsen was named Coach of the Year.

At the J.V. level, the Lancers played as well as the varsity. Which just goes to prove that Soccer at E.U. is here to stay.

Lancer Runners Take It In Stride

Cross Country is the most difficult sport of all to understand. Running miles and miles each day of practice just for a short fifteen minutes during a meet seems useless, but it isn't. These runners get the most out of hard work and this year's Cross Country team was the best ever at East Union. Missing out of first place by a single point, the Lancers were led by some great individuals and were outstanding throughout the year.

Track Finishes Another Winning Season

Fighting the cold and rainy weather, the Lancer Track Team finally got into gear and ended the season in full stride. Especially strong in field events, East Union was also helped by the addition of a Freshman speedster. This depth just added to the excitement already shown to the crowds.

Girls Track this year had its own coach and that made it possible for East Union to have a great season.

Girls Gain Success In Sports

The Girls Tennis and Volleyball teams had a great year. This was do to hard work and budding skills. Both teams placed in the league, Tennis taking 2nd and Volleyball 3rd. Each had their share of outstanding players like Joyce and Judy Ackerson, Linda Yonemoto; Denice Long, Ilene Shiromizu, and Kathy Long. The 1974-75 Sports Year

The 1974-75 sports year was highlighted by many great accomplishments. First of all, the three Lancer football teams all won league championships. The wrestling team sent a wrestler to the state meet for the first time ever and the gymnastics team won the league title for the first time also. The other Lancer teams faired just as well and all this wouldn't have been possible without the spirit and support of the students. All the teams thank you, E.U!

Badminton:

E.U.'s Newest Sport

A new sport at East Union was added this year and that was Badminton. To many of us this sport sounds easy, but it really isn't. You have to have the best coordination and skill, and it takes plenty of hard work. Badminton looks like it will be another of the many great sports at E.U.

2

Golf Swings Into Action

This year's East Union Golf Team was hurt by graduation but none-the-less they did what they were supposed to do; win. Finishing extremely high in the V.O.L. standings, our golfers kept their cool under pressure and went on to win many matches with determined concentration. Next year's team should be even better as most of the golfers will be back for, yet, another great season of golf.

Tennis Team Does It Again

Tennis at East Union has always been a popular, if not publicized sport. It gave the players a chance to get a tan while beating their opponents. This year's teams were no different. Though it started out as a very wet, frequently rained-out year, the Lancers got it together. They overcame the weather to go on to a successful season.

The Varsity Team lost and gained a few players this year. New members made up for talent lost. The season was a great success, with doubles and singles excelling in most matches.

At the Sophomore and Freshman level, there were eager young players showing great promise for the future. They quickly developed expertise to outmanuever their opponents, leading to victories for the East Union team.

Baseball A Spring Success

1: "Catfish" Cotton studies the catcher's signals.
2: Rick Phillips checks his swing.

Always a spring sport success, this year's Lancer baseball teams were no exception. The varsity won many games with their expert pitching and their no-error defense. The newly added pitching machine gave the players the extra time needed to work on their hitting. Keeping up with the other top teams was tough, but the Lancers had just what it takes to be winners.

The Sophomores were, as they are every year, a greatly formed baseball team. A couple of outstanding Freshmen helped the team through the year and gained some valuable experience.

The Freshmen team fit into the Baseball program perfectly this season as they were led by some talented athletes. With players like these, baseball in the coming years should be just as big a success as it has been in the past.

WITH BEST
PLANT FOODS AND PEST CONTROLS

Graduation Time...
Getting an apartment? Try growing your own tomatoes and strawberries in pots.
Off to college? Some luscious hanging plants will sure help a shabby dorm.
Getting married? You'll soon be planting lawns, flowers, vegetables and fruit & shade trees.

And when all those plants get hungry and need some protection...

Remember "Best"...
now that you're
growing places!
